

EXPLORIS ONE

Where Adventure Meets Luxury

With a reinforced hull and state-of-the-art small ship design, the ice class **Exploris One** expedition ship was designed to navigate the world's most demanding waters, including polar regions. Sailing under a French flag, the newly renovated (2023) **Exploris One** pairs adventure with a high standard of comfort, along with a personalized service of excellence that will make every journey unique. Each of the 72 suites and staterooms features a stunning ocean view. The ship's small capacity allows it to dock in ports typically inaccessible to larger ships, bringing you closer to some of the planet's most remote destinations.

Affinity Advantage

Exploris One is exceptionally equipped for you to share your adventure with like-minded explorers. From a conference room suitable to a variety of lectures and presentations to comfortable places to relax and reflect with fellow travelers, the atmosphere welcomes exchange and conviviality. And with the option to live-stream lectures to your suite or stateroom, you won't miss a thing!

Sustainability Matters

Exploris Expeditions & Cruises is committed to reducing greenhouse gas emissions, limiting the use of plastics and supporting projects that advance scientific knowledge and contribute to the preservation of biodiversity. It also aims to tap into the latest technology to eco-design future vessels so it can offer expeditions with minimal environmental impact.
