

WIND STAR

180° from Ordinary

WindStar guests can connect to the wonder, authenticity and majesty of a world discovered by small yacht. Slip past the crowds to experience smaller ports and get to know the local culture on more intimate excursions. WindStar's all-suite motor yachts and personalized approach bring you closer to each destination and every port, so you can see the world from new perspectives. No wonder WindStar was voted the World's Best midsize-ship ocean cruise line by the readers of *Travel + Leisure* in 2022.

Sustainability Initiatives

WindStar makes softening their carbon footprint a big priority. Many ships have installed advanced wastewater treatment systems and new engines, which will reduce emissions. These important changes aren't where sustainability initiatives end for WindStar. Onboard, chefs source food locally when possible and instead of large buffets, meals are prepared to order, which reduces waste. Another big trend is to reduce single-use plastics. Refillable Natura water bottles are placed in the cabins and refilling water stations are located throughout ships. Plastic straws and stir sticks are also not dispensed on board unless they are specially requested.

Jump in for Fun

Wind Star is equipped with a variety of Watersports Platform toys such as stand-up paddleboards and kayaks. The phenomenal Watersports Platform is located on the stern of **Wind Star**, where it provides sea access—no beach required. It's just one more way our yachts get you closer to your destination.
